CHICAGO, Nov. 6.—All the grain margers at the strong to-day and good advances were scored, wheat closing at the advance, corn 1/60%c higher and oats Straw Provisions closed substantially unforced to the control of the control 1,6 to higher. Provisions closed substantially un-changed. Higher cables and small world's shipments started a buying movement in wheat, all the more effective on account of the break of over 5c in less than a month.

out interest and considerable strength. For the first time in weeks prospective buyers had something really substantial to encourage them, in strong and higher cables and world's shipments that were much smaller than had been looked for, with prospects of a continuance of small shipments. Uneasiness by local shorts shown on Saturday's curb was much more apparent at the opening to-day and buying from that class of traders had much to do with the advance in prices that took place. The demand was not heavy, but offerings were few and far between not heavy, but offerings were few and far between wheat straw \$1.55. 1 car s no. 2 prairie \$6.00; 2 cars good No. 2 prairie \$1.00; 1 car processors. act heavy, but offerings were few and far between and shorts in consequence had some difficulty at times in consequence had some difficulty at times in covering. But all offerings were quickly absorbed and at no time did the market exhibit weakness. The trend of prices was steadily upward and during the last loour of the session the best prices of the day were obtsishing. New York was a fair buyer, presumably against export engagements, sithough only five loads were reported an taken up to a late hour. St. Louis was also a fair buyer at times. Corn was firm, partly in sympahty with wheat and partly on account of the firm cables and moderate local receipts. The local decrease, 25,000 hushels, was even larger than expected and also had some influence. There was a general covering movement by shorts in both December and May and advanced prices were well maintained. Receipts were 206 cars. December ranged from 20% to 21% and closed 1,6% chigher, at 11% 621%.

The market for oats was almost entirely a sympathetic one, prices following in a small way the fluctuations of what and corn. Prices advanced slightly early in the session on scattered covering by shorts and the advance was well maintained. Elevator people sold moderately. An increase of only 26,000 bushels in the visible had some influence. Receipts were 128 cars. December ranged from 22% 622% to 22% on closed 1,60% higher at 22% 622%.

NEW YORK, Nov. 6.—The course of the stock market to-day effectually dissipated the symptoms of weakness which were engendered by the Saturday bank statement. The course of prices was downward in the early dealings, but practically all the declines were recovered and some striking net gains were established in a considerable list of stocks. The downward course proceeded to the extent of 1 to 2 points in a number of prominent industrials, and reached as much as a point in a number of the railreads, including examples from the grangers. Southpoints in a number of prominent industrials, and reached as much as a point in a number of the rail-reads, including examples from the grangers. Southwesterns, Southerns, coalers and trunk lines. Northwestern dropped at one time 2½. In the leading industrials a level of prices was subsequently established reaching generally a point above Saturday. The railroad group was not so resilient, but its downward course of the morning was very generally retraced and fractional net gains are the rule. In Southern Pacific, the recent large and organized buying was resumed after the decline had reached 2, and it was sidvanced 1½ and closed ther. The speculation in leather continued on an enormous scale, the price being raised on running sales of 20,000 shares at the opening, from 3, below to 1/2 above Saturday's price. Subsequently the loss of Saturday was more than recovered, and the price lifted to within a shade of 41. There was heavy realizing in the stock in the late dealings, but it was firmly supported at 40. The renewed support by the speculative pool in Leather had no small influence in dissipating the fears of a general break in prices. There were many soothing explanations offered of the exhibit of a deficit in surplus reserves by Saturday's bank statement. The favorite (x-planation among speculators was that it was due to an "error" in the return of a single bank, or rather to the rectification of an error made in the previous week's return. It was this error, so it was said, which caused the unduly favorable statement of October 25, and the allowance for it which made the showing of the deficit of last Saturday and upset the stock market. The comfort found in this explanation was somewhat disturbed by the rise in the call money rate to 12 per cent and the calling in of loans by the banks. But the conviction be-

New Clearing House Rule.

New Clearing House Rule.

NEW YORK, Nov. 6.—The clearing house committee of the Clearing House Association has decided to place all the trust companies that clear through banks in the association in the same category as the non-member banks, which means, in effect, that the trust companies will be obliged to make weekly reports of their assets and liabilities and submit to general examination of their affairs. It was also decided by the committee to send out a formal notice to the sixty-four banks in the association informing them that they must not clear for any trust company unless the company has been in active operation for at least one year. This will lear the Morton trust, the Federal trust the Bankers' trust, the Century trust, the Trust Company of New York and fully half a dozen others that have come into existence recently. This rule will place the trust companies on exactly the same footing as non-member banks.

OF INTEREST TO STOCKMEN. Free Movement of Mexican Cattle Into the States-Other Items. It is reported from El Paso, Tex., that there wil be a liberal movement of Mexican cattle into the States in the next thirty days. It is said that 10,000 will pass through on their way to Cuba. One thou-sond head of steers will come in for California to us fed, and 500 calves and yearlings for the Texas Pan-handle.

Up to date the decrease in the cattle receipts a Chleago from January 1 last year has been 28,700, and n hogs 241,600.

"Cattle in our section are doing well," said J. M. Coburn, of Adobe Walls, Tex., manager of the Hansford Land and Cattle Company, who was at the yards yesterday. "Range is good, and cattle will go into the winter in good shape." A. L. Langley, of Charleston, W. Va., was here R. E. Booth, of the Sparks Bros. Mule and Horse Company, is back from a visit to Marshall, Mo. He says there are a good many nules in Saline county, and cattle feeding will be pretty liberal there this winter, as corn is good.
